9. ☐ Other ____.

REASONS FOR ALLOWANCE

1. Claims 50-51 are allowed.
2. Claims 1-49 and 52-57 are canceled.
3. The following is an examiner's statement of reasons for allowance:

The prior art of records fails to disclose or render an obviousness of a system for performing a FFT in n stages comprising: a non-final stage for performing in-place butterfly for $n-1$ iterations; a final stage including a first and second loops means wherein the second loop means performing two sets of butterfly calculation, and storing butterfly calculation outputs from a first/second one of the two set of butterfly calculations in shuffled order in place of the input selected for a second/first respectively one of the two sets of butterfly calculations and wherein the non-final stage calculating means performs a first stage of radix-8 butterfly calculations and other stage using radix-4 butterfly calculation as seen in independent claim 50.

The closest found prior arts are Kozaki et al. (U.S. 6,058,409) and Aguilar et al. (U.S. 5,473,556). Kozaki et al. in view of Aguilar et al. disclose a system for performing a FFT in n stages comprising a non-final and final stage with in-place butterfly for $n-1$ iterations. However, neither individual or in combine of Kozaki et al. and Aguilar et al. clearly disclose the second loop means performing two sets of butterfly calculation, and storing butterfly calculation outputs from a first/second one of the two set of butterfly

calculations in shuffled order in place of the input selected for a second/first respectively one of the two sets of butterfly calculations and wherein the non-final stage calculating means performs a first stage of radix-8 butterfly calculations and other stage using radix-4 butterfly calculation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
